Public hearing/action re: rezoning case RZ-02-22
(requested change: RS-30 to CZ-OI; location: 7400 Summerfield Rd.; parcel: 147125)

STAFF COMMENTS AND/OR RECOMMENDATION:

See attached staff report for full details. It contains the application and background, Planning Board recommendation, and narrative about compliance with adopted plans, maps, and other relevant information. Rezoning decisions must be made based on:

- the current Development Ordinance;
- the current Comprehensive Plan (per NCGS 160A-383 below); and,
- “any other officially adopted plan that is applicable.”

Council must “approve a statement describing whether its action is consistent with an adopted comprehensive plan and any other officially adopted plan that is applicable, and briefly explain why the board considers the action taken to be reasonable and in the public interest.” The statement will be provided to the applicant as formal notification of the rezoning decision.

§ 160A-383. Purposes in view. Zoning regulations shall be made in accordance with a comprehensive plan. When adopting or rejecting any zoning amendment, the governing board shall also approve a statement describing whether its action is consistent with an adopted comprehensive plan and any other officially adopted plan that is applicable, and briefly explaining why the board considers the action taken to be reasonable and in the public interest. That statement is not subject to judicial review.

The planning board shall advise and comment on whether the proposed amendment is consistent with any comprehensive plan that has been adopted and any other officially adopted plan that is applicable. The planning board shall provide a written recommendation to the governing board that addresses plan consistency and other matters as deemed appropriate by the planning board, but a comment by the planning board that a proposed amendment is inconsistent with the comprehensive plan shall not preclude consideration or approval of the proposed amendment by the governing board.

Zoning regulations shall be designed to promote the public health, safety, and general welfare. To that end, the regulations may address, among other things, the following public purposes: to provide adequate light and air; to prevent the overcrowding of land; to avoid undue concentration of population; to lessen congestion in the streets; to secure safety from fire, panic, and dangers; and to facilitate the efficient and adequate provision of transportation, water, sewerage, schools, parks, and other public requirements. The regulations shall be made with reasonable consideration, among other things, as to the character of the district and its peculiar suitability for particular uses, and with a view to conserving the value of buildings and encouraging the most appropriate use of land throughout such city.

NOTES:

COUNCIL ACTION AND/OR DIRECTION:
